Docket No. 98N-1265
Food and Drug Administration
5600 Fishers Lane
Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular,
I OBJECT to the definition of "inordinate amount" which restricts the availability
and the right to obtain medically necessary compounded medications by limiting
the number of prescriptions that can be shipped across state lines from specialized
compounding pharmacies.

COMMENTS:

The government has no right
to decide what type of medication
is best for me. I have been taking
Hormone Replacement for 25 years because
of an early hysterectomy. Last year I
asked to be put on something more
natural. I haven't felt this great
since the surgery years ago. My
life has dramatically improved because
of no more water retention causing
me to feel bloated & have little
energy & no more symptoms relating
to menopause. Women do have
Rights! I would like to continue to be
able to receive my compounded prescription
from Women's Health America.

Please fold, seal, and mail by June 1
